Annual review of concussion awareness resources that help prevent, identify and manage concussions, which athletes, coaches, educators and parents would be required to review before registering in a sport. Removal-from-sport and return-to-sport protocols, to ensure that an athlete is immediately removed from sport if they are suspected of having sustained a concussion and giving them the time required to heal properly. A concussion code of conduct that would set out rules of behaviour to minimize concussions while playing sport.

Starting this season, all participants will be required to review the issued Concussion Awareness Resources, sign the **Acknowledgment Form** and submit it to their respective local ball hockey organization.
